WELCOME NOTE

Welcome to the Amplify After School Symposium!

With great anticipation, we extend a warm welcome to the **2024 Amplify After School Symposium**. This gathering provides a unique opportunity for After School Programmes (ASPs), practitioners, changemakers and leaders to come together to learn and celebrate the sector. Our carefully crafted programme is designed to engage and inspire you. It is a platform for ASPs to exchange knowledge, expand networks, and be inspired to innovate.

As you know, The Learning Trust is dedicated to developing South Africa's extended learning sector by providing funding and capacity support to ASPs that work towards improving educational outcomes for all young people. In a rapidly changing world with evolving educational paradigms and growing socio-economic disparities, the need for accessible and impactful extended learning is paramount. We are deeply grateful to Allan & Gill Gray Philanthropies South Africa for generously supporting our vision for a cohesive sector as we pursue equity and quality in our country's education outcomes.

ASPs play a vital role in shaping children and young people's lives, and providing a safe, nurturing environment that extends learning **Beyond the Classroom**. But we know that many ASPs face limited resources, fragmented support, and a lack of comprehensive scaling and amplification strategies. Unfortunately, quite a few ASPs often function in isolation, unaware of innovative practices and intervention models, which results in duplication and misalignment. This Symposium is dedicated to addressing these challenges.

As such, our two-day programme centers around six core themes that will serve as the cornerstone of our discussions and activities: Amplifying Educational Transformation, Scaling for Impact, Leveraging Innovation, Employing and Empowering Youth, Strengthening Public Partnerships, and Sustainably Resourcing ASPs. Together, these themes work to foster collective growth, magnify our impact, and inspire you to be a more vocal and influential after-school changemaker.

We eagerly look forward to a symposium teeming with thought-provoking discussions, collaborative learning, and tangible insights. Your involvement in this transformative experience is truly valued, and we applaud your commitment to uplifting South Africa's children and youth. The Amplify After School Symposium is crafted specifically for you - we hope that you will forge connections with like-minded colleagues and join us in celebrating the impactful realm of after-school initiatives!

Best regards,

Sibongile Khumalo
Executive Director, The Learning Trust
